GOVERNMENT 5-STAR SAFETY RATINGS

Overall Vehicle Score

Not Rated

Based on the combined ratings of frontal, side and rollover. Should ONLY be compared to other vehicles of similar size and weight.

|                                                                                                                        |                      |           |
|------------------------------------------------------------------------------------------------------------------------|----------------------|-----------|
| Frontal Crash                                                                                                          | Driver Passenger     | ★★★★★     |
| Based on the risk of injury in a frontal impact. Should ONLY be compared to other vehicles of similar size and weight. |                      |           |
| Side Crash                                                                                                             | Front seat Rear seat | ★★★★★     |
| Based on the risk of injury in a side impact.                                                                          |                      |           |
| Rollover                                                                                                               |                      | Not Rated |
| Based on the risk of rollover in a single-vehicle crash.                                                               |                      |           |

Star ratings range from 1 to 5 stars (★★★★★) with 5 being the highest.

Gasoline Vehicle

Fuel Economy

23

MPG

combined city/hwy

21

city

26

highway

4.3

gallons per 100 miles

You spend

\$2,000

more in fuel costs over 5 years

compared to the average new vehicle.

Small SUVs range from 14 to 118 MPG. The best vehicle rates 140 MPGe.

Annual fuel cost

\$2,300

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 28 MPG and costs \$9,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$3.50 per gallon. MPGe is miles per gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.

Fuel Economy & Greenhouse Gas Rating (tailpipe only)

5

1 10 Best

This vehicle emits 378 grams CO<sub>2</sub> per mile. The best emits 0 grams per mile (tailpipe only). Producing and distributing fuel also creates emissions; learn more at fueleconomy.gov.
